Water Management Orders				
Regional Water Services Ltd. and Colvin, Jeff	Rocky View County SW-27-26-4-W5 SE-28-26-4-W5 NE-28-26-4-W5 NW-27-26-4-W5	25-Jul-12	WA 97(1)(h)	The Company has a licence to divert water and operate a works for the purposes of water supply to a municipal subdivision and water management for the stabilization of Cochrane Lake. Colvin is the sole director and is the directing mind of the Company in regard to the activities which form the subject matter of this Order. In the fall of 2011, the water level in Cochrane Lake exceeded the high water level of 1281.00m as set out in the Licence. The Company has been requested on numerous occasions to lower the water level to the operating limits and has failed to take the necessary action to do so. The level in Cochrane Lake on May 12, 2012 is 1282.885m which exceeds both the normal level and the Maximum water level. The high water levels at Cochrane Lake are covering septic systems and may flood residences and structures associated with those residences that are adjacent to the lake, which may cause or is causing a significant adverse effect on human health and property. The Company shall take immediate measures to commence reducing the water levels to 1281.00m; Commence activities that directly mitigate the health impacts that the high water levels pose to adjacent affected properties; Submit a proposal for a Long Term Management Plan to maintain the water levels at or below the 1281.00m level; Implement the Plan; and submit progress reports to the Director every second Monday with the first status report due August 13, 2012. Notice of Appeal received by the Environmental Appeals Board August 1, 2012.
